

Four-Year-Old Kindergarten

Wood County Christian School

2016-17

Dear Parents,

I am pleased that you are considering Wood County Christian School's K4 program for your child. We have a wonderful program, and it is my desire to provide a positive educational experience that will help develop your child's mind, body, and spirit. Our daily schedule is filled with age-appropriate activities that will not only help your child grow academically but socially, emotionally, and physically as well. Our structured setting helps students develop good habits and establishes a strong foundation for their future schooling.

WCCS offers a two-day program where students attend either M/W or T/TH. We also offer an optional third day program on Fridays. The A Beka four-year-old curriculum is used for our phonics, numbers, and handwriting program. This strong reading program allows most K4 students to read by the end of the year. We are very excited to introduce a new and updated Bible curriculum for the 2016/17 school year published by Purposeful Design. This Bible curriculum includes daily Bible lessons, memory verses, and songs. The student workbooks come with lovely color pictures and reinforce concepts such as opposites, letter recognition, counting, rhyming, emotional awareness, visual discrimination, and more.

Our two-day-a-week students enjoy both music and art. Music class is with our music teacher in the music room and art projects are with me in the classroom. Our three-day-a-week students enjoy art and PE classes outside the classroom.

Children this age love to learn. They bring such joy and enthusiasm to school every day. I am blessed to have the opportunity to teach our K4 class and would be honored to have your child in our program.

Thank you and God bless,

Can your child:

- √ Sit quietly, and listen to a story, poem, or nursery rhyme for 10-15 minutes?
- √ Listen and follow simple two-step directions?
- √ Ask questions when help is needed?
- √ Use a tissue and use the bathroom unassisted?
- √ Obey those in authority on a regular basis?

K4 Readiness Review

Each child entering K4 will be required to participate in the K4 Readiness Review. The review is designed to have each child participate in activities to check for physical, emotional, and social readiness as well as academic readiness. The screening will be in a small group setting where children will participate in normal K4 daily activities, such as a read aloud story, coloring, and counting. This readiness review is scheduled for Wednesday, May 11, 2016, beginning at 1:30 PM. If this review indicates that are readiness concerns, parents will be contacted to establish a plan for proceeding forward.

Information regarding the review appointments will be sent to families whose child is enrolled for the 2016-17 school year.

Summer Activities to Help Your Child

Some things you can do to help your child be ready for the start of kindergarten are:

1. Learn to share and take turns.
2. Work on recognition of name.
3. Help develop gross and fine motor skills, recognition of colors and shapes, recognition of letters, and counting to 5.
4. Summer Activities — Gross motor skills—running, throwing, catching, hopping, marching, and jumping. Fine motor skills—cutting, coloring, printing, zipping, buttoning, manipulating puzzle pieces.
5. Get your child involved in a group setting, such as Sunday School, library story time, or similar activity where you leave your child for a short period of time.

While social and emotional development are strongly nurtured in our K4 program, our emphasis is on our excellent academic program.
